ECE 4600 GROUP DESIGN PROJECT - DESIGN REVIEW #2

ASSESSMENT RUBRIC TO BE COMPLETED AND SUBMITTED BY 24 NOVEMBER 2017

Group:

Advisor:

Instructions:		
 Review reference documentation supplied by the pre- 		
 Engineering record in the group's Asana w 		
o Design Review #2 progress report (DR #2)		
Meet with the project team to discuss/review progres		
Complete the following assessment and return to Definition	erek Oliver by 24" November 2017	
Q1 Attribute Indicator ET-3: Adapts or creates tools to me Design/simulation not fully completed, project not ready Design/simulation largely incomplete but some prototypic Design/simulation mostly complete, milestone largely admitted design/simulation evaluation, prototyping/extensions.	for prototyping (needs work) [ng can commence (developing) [thieved (competent) [/s]]]
Attribute Indicator EP-2: Understands concepts of project	ct management	
Q2 Realism of the current/evolved GANTT Chart & budg		
No relation to task at hand (needs work)	Ţ]
Schedule is imperfect but scope is viable (developing)	[ļ
Imperfect but group has demonstrated capability to revie The project description is reasonably crafted/understand		ı 1
The project description is reasonably crafted/understand	idble (strong)	1
Q3 Attribute indicator IT-2: Contributes equitably to com	nletion of aroun work	
	protion or group work	
Did the group contribute to the project equally	Yes [] No []	
If "No", please provide a % breakdown of contributions in	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student	Yes [] No []	
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1 2	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1 2 3	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] n the table below.	
If "No", please provide a % breakdown of contributions in Name of Student 1 2 3 4 5 6	Yes [] No [] In the table below. Student's Share of the project	
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] In the table below. Student's Share of the project	1
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] In the table below. Student's Share of the project Student's Share of the project (student's Share of the proj]
If "No", please provide a % breakdown of contributions in Name of Student 1 2 3 4 5 6 Total Q4 Attribute Indicator DE-4: Devises and implements a pollution The group is still grappling with the fundamentals of the The design has required substantial revision and is still in The design revisions have mostly resolved the issues un	Yes [] No [] In the table below. Student's Share of the project Student's Share of the project Dolan to evaluate a proposed design project (needs work) Inot finalized (developing) Incovered (competent)]
If "No", please provide a % breakdown of contributions in Name of Student 1	Yes [] No [] In the table below. Student's Share of the project Student's Share of the project Dolan to evaluate a proposed design project (needs work) Inot finalized (developing) Incovered (competent)]
If "No", please provide a % breakdown of contributions in Name of Student 1 2 3 4 5 6 Total Q4 Attribute Indicator DE-4: Devises and implements a pollution The group is still grappling with the fundamentals of the The design has required substantial revision and is still in The design revisions have mostly resolved the issues un	Yes [] No [] In the table below. Student's Share of the project Student's Share of the project Dolan to evaluate a proposed design project (needs work) Inot finalized (developing) Incovered (competent)]
If "No", please provide a % breakdown of contributions in Name of Student 1 2 3 4 5 6 Total Q4 Attribute Indicator DE-4: Devises and implements a solution The group is still grappling with the fundamentals of the The design has required substantial revision and is still in The design revisions have mostly resolved the issues un The design/revisions have ensured that the milestone has	Yes [] No [] In the table below. Student's Share of the project Student's Share of the project Dolan to evaluate a proposed design project (needs work) Inot finalized (developing) Incovered (competent)]
